

DYNO CAR

At XAP Technology, we provide a specialized service tailored for motorsport enthusiasts. Our state-of-the-art dynamometer is designed to test the full potential of your vehicle, handling power outputs of up to 1900 hp and 2600 Nm. It is compatible with all types of drivetrains, including all-wheel drive, rear-wheel drive, and front-wheel drive.

Whether your passion lies in grip racing, drifting, or rallying, our mission is to offer you the opportunity to thoroughly assess your vehicle's performance.

We ensure that you can fine-tune your settings with precision, optimizing your vehicle for race weekends and track days.

Our services include :

- Comprehensive engine performance analysis
- Custom tuning and adjustments to suit your needs
- Fuel efficiency optimization
- Power enhancement for superior performance
- Conversion and tuning for ethanol compatibility

With our expert knowledge and cutting-edge equipment, you'll be fully prepared to push the boundaries of your machine, whether on the track or at your next competition.

*The vehicles will no longer be intended for road use.
In case of any road-related issues, we disclaim all responsibility.

OUR STRENGTHS:

PRECISE PERFORMANCE ANALYSIS:

Get detailed data on your engine's power and behavior.

CUSTOMIZED OPTIMIZATION:

We adjust the engine mapping according to your specific needs.

MEASURABLE PERFORMANCE GAINS:

Enjoy better responsiveness and increased power.

CUTTING-EDGE EXPERTISE:

Benefit from our expertise in mechatronics and embedded systems.

BEFORE / AFTER:

An immediate improvement.

You'll feel like you're driving a new machine, tailored and tuned just for you.

MORE INFORMATION ON WWW.XAP.FR

Every engine is unique and deserves the utmost care !

Why choose XAP Technology ?

With our expertise and experience in the field of motorsport, we understand the importance of every technical detail.

That's why we tailor each mapping to the specific machine, creating a personalized and unique adjustment.

Our team of experts works with you to maximize every parameter of your engine, from power to fuel consumption.

By not only adding horsepower but also shaving off seconds, our team will do everything possible to make your engine more powerful and, most importantly, more reliable.

Your satisfaction, our priority !

Choosing XAP Technology means opting for a premium, personalized engine mapping service at the forefront of technology.

We don't just meet your expectations; we strive to exceed them, ensuring that every second on the track is a victory.

Trust a partner who places your challenges at the heart of its priorities.
