

SX DASH COLOUR AT THE BEST PRICE

Based on a transfective colour display with high contrast, the SX-Dash offers *perfect visibility in full sunlight*.

The SX-Dash is compact and can integrate perfectly into your vehicle. This dashboard is also very flexible in order to communicate via CAN with your calculator.

The SX-Dash dashboard has 8 orange RPM Leds and 4 multicolour RGB Leds for configurable alerts.

Each screen is configurable in order to fit as closely as possible to your particular use i.e., track, rally, hill racing.
